Office Action Summary

Claims in the application are 1-174.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-80, 128-137 and 174, drawn to a silk-fiber based matrix having a wire-rope geometry that can be seeded with cells for use in producing a predetermined type of ligament or tendon ex vivo, and to bioengineered tissue containing the matrix, classified in class 424, subclass 423.

II. Claims 81-127 and 138-173, drawn to a method for producing a predetermined type of ligament or tendon ex vivo by seeding cells on a silk-fiber based matrix of cylindrical form, either pre- or post-matrix formation, attaching first and second anchors to opposite ends of the matrix, and culturing the cells, and to bioengineered tissue produced using the method, classified in class 435, subclass 395.

The inventions are distinct, each from the other because:

The silk-fiber based matrix of Group I can be used in vivo and can be used in a method other than required by Group II, and the method of Group II produces a ligament, tendon or tissue not required by Group I.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M. Naff whose telephone number is (703) 308-0520. The examiner can normally be reached on Monday-Thursday and every other Friday from about 8:30 AM to about 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, a message can be left on voice mail.
